

Big Data Centers and Internet Companies

Overview

Mega Data Center Companies invest heavily in cutting-edge technologies to provide high-performance computing, energy efficiency, and enhanced security. Data center development has entered a historic growth phase, supported by AI adoption, cloud expansion, and global digital infrastructure needs. In 2024 alone, the four largest hyperscale data center companies, Amazon, Microsoft, Google, and Meta, spent close to USD 228 billion, a 55% jump from the. Globally, the top 250 data center companies comprise a mix of cloud service providers (CSPs), retail colocation firms, and wholesale data center operators. These data center providers and operators deliver power and cooling infrastructure in highly specialized buildings that house computer servers. Yotta NM1 is the first of the five data center buildings at the Integrated Yotta Data Center Park. It is located in the Hiranandani Fortune City in Panvel, which is close to Mumbai. The building exhibits 7,200 racks and consumes 50 MW of power. The facility has an overall capacity of 30,000 racks. Data Centre Magazine highlights the top 10 highest performing data centre companies in 2024 committed to expansion and innovation. The list includes established tech giants such as AWS and Cisco alongside emerging players like Aligned Data Centers and EdgeConneX, each bringing unique strengths to the market.
