

Black PoE Switch

Overview

Provides four Fast Ethernet PoE/PoE+ ports, one Gigabit copper port and one Gigabit SFP port. Extended temperature range of -40 to +167° F (-40 to +75° C) with an IP30 case. Ideal for security and surveillance, building automation, oil/gas facilities, military applications. This switch automatically detects and powers PoE+ devices directly through your Ethernet cable, delivering up to 30 W of power per port with a maximum total power of 144 W. LEDs provide instant status updates. 3af/at PoE+, the switch supports PoE power up to 30W for each PoE port. Order by: Default order Price Popularity Product name Introduction date Add high-powered PoE devices to your Gigabit LAN. Combine multiple high-end video screens and any four USB peripherals and share them between four workstations. Provides 10/100/1000BASE-T UTP ports and 1G/10G SFP+ ports.
