

Coupler ST Interface

Overview

This Multimode ST connector joins two multimode fibre optic cables together. Corning's 720 series ST (single tube) fiber connectors and adapters offer superior performance and high repeatability. These products are fully intermate able with all standard ST products and deliver very high stability under a wide range of applications and conditions. Prices and availability are not currently available. Querying for downloads for the current product returned an error. The enclosed spiral slotted coupling nut allows easy insertion in densely packed patch panels. The ST connector has been used extensively in telecom, data premise installation. ST Connectors, also known as "Straight Tip" or BFOC (Bayonet Fiber Optic Connector), were developed by AT&T in the mid-1980s as a cost-effective and space saving alternative to the larger Biconic Connector. With a bayonet-style coupling, the ST Connector offers a quick half-turn lock, making it. Duplex metal ST to ST fiber optic couplers support reliable ST-to-ST duplex fiber connections in network and industrial environments through panel-mounted rectangular cutout installations providing straight-through connections for ST female connectors. Available with bronze or ceramic alignment.
