

Egyptian Smart Micro-Module Data Center Brand

Overview

Huawei FusionModule2000 is a versatile micro-module data center designed for small- to medium-sized enterprises, banks, governments, and healthcare, providing high integration and efficient energy management. Huawei SmartLi UPS is a Li-ion battery power system designed for data centers. In the Wujiu Expressway project, the Huawei smart modular data center solutions for the entire expressway were deployed within one month. Data centers are the foundation of the digital world. Modular approach minimises changes and delays, simplifies project design and. Northstar Enterprise + Defense offer solutions with speed, performance and security in mind (Credit: Northstar Enterprise + Defence) Northstar Enterprise + Defence delivers turnkey solutions for AI/ML, enterprise, telecoms, defence and government applications, with a specialised focus on modular. Link Development specializes in data center transformation, particularly with Azure, offering comprehensive services that include digital strategy, cloud services, and custom software development.
