

Fiber Optic Cable Satisfaction

Overview

In a 2024 CableTV survey, the best major internet service providers for overall satisfaction were either fiber or wireless providers, those being Google Fiber, T-Mobile, Verizon and AT&T. Meanwhile, Xfinity, Spectrum and Cox all hovered at or below 50 percent approval. Fiber-optic connections, however, are the newest, and some say best, option of all three. Here are all of the major pros and cons associated with fiber-optic internet. ACSI's report rates consumer satisfaction for both fiber and non-fiber ISPs as well as for video streaming services and apps. Fiber optic and cable systems offer high-speed internet, TV, and phone services to residential and business customers, but they also face challenges. Mobile carriers are flooding the airwaves with catchy commercials boasting about their ability to provide affordable, high-speed home internet. FWA is an innovative new form of 5G or 4G LTE wireless technology that. Fiber-optic networks represent a complete departure from traditional copper wiring.
