

German Agent for 19-inch Edge Data Center

Overview

Siemens Smart Infrastructure, Cadolto Datacenter GmbH (Munich, Germany), and Legrand Data Center Solutions (Baiersdorf, Germany) are jointly unveiling a next-generation modular edge data center – a turnkey solution engineered for speed, scalability, and sustainability. The 19-inch rack design is standardized internationally according to IEC standard 297 and in Germany according to DIN 41494. They are proven to accelerate deployment while driving end-to-end simplicity and reduce risk of hidden costs and project delays. They are designed for the Edge and built with the most advanced power and cooling. At nVent, we provide cutting-edge edge data center solutions that enable organizations to deliver faster, more reliable services to their customers. Reduced Latency: By processing data closer to the source, edge data centers significantly decrease latency, enabling real-time applications such as. The Edge Data Centre is an innovative integrated data center infrastructure solution by Rittal, specifically designed for mission critical server room applications. In this case, we will be happy to fulfill any corresponding extra requests.
