

Guyana Well Logging Optical Cable Manufacturer

Overview

Digicel Group said it activated its subsea fibre optic cable 'Deep Blue One' to “supercharge” connectivity across Guyana, French Guiana, Suriname and Trinidad & Tobago. Suitable for oil wells, gas wells, coal mines or under high temperature conditions. The cables marked with Dry; They are a series of cables in which the typical water blocking the intermediate tubes (gelatin, water swelling tape or powder) is replaced with a solid foamed thermoplastic elastomer. The company said in a public notice it was seeking to identify suppliers who can provide 'onshore underground fiber optic cable survey and installation. ExxonMobil has selected TechnipFMC and Halliburton to provide the Odassea subsea fiber optic solution for the Payara development project in Guyana. The award follows the completion of front-end engineering and design studies and qualifications.
