

How much does an Ethernet fiber optic switch cost

Overview

Entry-level switches with basic features and Gigabit Ethernet ports may start from around \$200 to \$500. Various port sizes are available ranging from 4 up to 52 ports. We offer solutions that provide seamless transmission and conversion. Check each product page for other buying options. Managed and unmanaged Layer 2 and Layer 3 fiber optic Ethernet switches. Mount these Ethernet switches onto a standard 35 mm DIN rail alongside PLCs, relays, and power supplies—they snap in place and stay secure. They connect computers, sensors, and other devices to the same network so they can talk to each other, access the Internet, and provide you with real-time. Fiber optic network switches are essential elements in modern communication infrastructure, providing fast, high-bandwidth communications in a variety of industries ranging from massive data centers and telecom networks, through industrial automation systems to cutting edge technologies such as IoT. Search Newegg.
