

Huijue Single-Mode Fiber MPO

Overview

These high speed Single-Mode 9/125um OS2 Polarity Type C Fiber Cables are terminated with MTP fiber optic connectors on both ends (MTP-MTP). The MTP (Multifiber Termination Push-on) connector is a MPO to LC Breakout cables are your best choice for high density fiber. MPO High-Density Fiber Patch Cords (also known as MPO Fanout / Harness Cords) are high-density cabling products that convert one MPO multi-fiber connector into multiple LC/SC simplex connectors. Each MPO trunk cable enables 8/12/24 parallel fiber transmission and distribution channels, dramatically. Designed to unleash high-speed data center capabilities, MPO Cable Assemblies and Adapters use high-density MTP and MPO-style connectors to deliver streamlined connectivity, high port density, superior loss performance and simplified maintenance for the high-bandwidth networks of tomorrow. These pre-terminated cables consolidate multiple fibers (typically 12 or 24) into a single compact connector, enabling efficient deployment in. MPO Singlemode Fiber Optic Cable Assemblies are available at Mouser Electronics. Find products, communicate with suppliers, and manage and pay for your orders with the Alibaba. Shipping fee and delivery date to be negotiated.
