

Low-voltage electrical box complete set of equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Streamline your home wiring and media setup with low voltage panel boxes. AC 50/60 Hz, rated working voltage to 660V, rated working current to 3150A. As power conversion, distribution and control for power, lighting and. XL series power distribution cabinet is suitable for civil and industrial and mining enterprises, in the AC frequency 50Hz voltage 400V three-phase three-wire, three-phase four-wire power system for power distribution control, a wide range of use, can be used in high-rise buildings and industrial. MD-MAX is the MDmax series low-voltage switchgear developed and authorized for production by ABB. Compliant with multiple standards such as IEC and national standards. The cabinet adopts technologies such as aluminum zinc plate double folding and. From circuit breakers and buses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage electrical distribution applications. Air circuit breakers from 630A to 6300A Molded case circuit breakers from 16A to 630A Molded case circuit breakers. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand.
