

Mexico-Singapore Win-Win Optical Cable

Overview

The Bifrost Rosarito Submarine Cable System (Bifrost), set to link Singapore with Mexico and boost digital growth and broadband connectivity in Asia and North America, is intended to start operations in 2024. This visualization shows the growth of the undersea cable network, global internet peering capacity, and the distribution of IP addresses via BGP announcements over time. Use the controls at the top to play the animation or step through year by year. For more details and insights, please read this. The Bifrost Cable System is a trans-pacific cable system connecting Singapore, Indonesia, the Philippines, the United State (Guam, Grover Beach, Winema) and Mexico, with its main trunk linking Singapore to the United States over 16,556 km via Indonesia through the Java Sea and Celebes Sea, and. Winchester Interconnect is a global leader in connectors, RF & microwave, hermetic, fiber optic & cable assemblies. On the evening of October 7, Jiangsu Hengtong Optic-Electric Co. (hereinafter referred to as "the company") issued an announcement.
