

ODF fiber coupler

Overview

Mounted on the front or rear of the ODF, these panels hold fiber optic adapters (couplers) that connect terminated fibers to patch cords. Adapter Types: LC (most common for high density), SC, ST, or MPO (for multi-fiber connections). In our online store, we offer you a comprehensive selection of couplers, from LC and SC to MTP, singlemode, multimode and E2000. Our fiber optic couplers impress with their low attenuation and high. DCX adapter frames and cassettes have a modular, compact design that allows for assembly of two (Base-24), four (Base-12), or six (Base-8) cassettes per housing tray. Usually mounted in 19' racks or cabinets. Available in different types and designs depending on the number of fibers to be installed and requirements on design and safety. FC fiber adapter, SC fiber adapter LC fiber adapter, ST fiber adapter.
