

Saudi Arabia joins in transparent optical cable 2-core

Overview

RIYADH: Saudi Arabia is now connected to the world's longest subsea cable after the 45,000-km fiber-optic 2Africa network landed in Jeddah and Yanbu, paving the way for the Kingdom to become a global digital hub linking three continents. The 2Africa consortium, comprising Bayobab, center3, China Mobile International, Meta, Orange, Telecom Egypt, Vodafone Group, and WIOCC, announced on Wednesday the completion of the core 2Africa infrastructure, a landmark subsea cable system that sets a new standard for global connectivity. The project, which connects East and West Africa with Europe, the Middle East and South Asia, is designed to. Therefore, we have meticulously curated a list of the top 5 best fiber optic cable manufacturers in Saudi Arabia for the year 2024, highlighting their unique strengths, products, and contributions to the Saudi telecom industry. Join us as we delve into the core of Saudi Arabia's fiber optic. Saudi Arabia is rapidly positioning itself as a global leader in digital infrastructure, and at the heart of this transformation lies its commitment to fiber optic connectivity. As part of Vision 2030, the Kingdom has made massive strides in enhancing its telecommunications landscape, and fiber. Saudi Arabia is surrounded by major fibre-optic cables - but the Trans Europe Asia System will be the first such project to cross the country (telegeography).
