

Sdc distribution box

Overview

The SDC range is suitable for electrical distribution at factories, construction sites, general distribution boards or for temporary power supply. The distribution boards are built to customer requirements, with direct metering or current transformer metering. Features: entry with 10m neoprene HPCH075G6 - 5x6 mm² flame retardant power cable with 32A - 3P+N+G - 400V~ -. The SDC accepts primary power and reduces the voltage for distribution. Primary power can be either from a commercial power plant, diesel engine driven prime power generator sets, or from another SDC. The SDC is designed to accept primary power at 4160VAC, 60Hz, or 3800VAC, 50Hz, 3-phase from any. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility. ABB's Low. The primary number used to identify an item of production or a range of items of production, by the manufacturer (individual, company, firm, corporation, or Government activity) which controls the design, characteristics, and production of the item by means of its engineering drawings. 6110-01-168-8077 An enclosure which includes mounts, and protects such items as switches, circuit breakers, jacks, fuseholders, connectors, terminals and/or terminal boards, resistors, capacitors, transformers, and the like. It is primarily designed to distribute electrical power from one or more primary power.
