

Specifications of PXT series distribution boxes

Overview

Distributor box, application: Standard, connection method: M12 PUSH-PULL female connector / M12 socket, number of slots: 6, number of positions: 4, coding: A, slot assignment: single, status display: yes, PNP; master cable connection: Push-in connection 180°, shielding: no

Distributor box, application: Standard, connection method: M12 PUSH-PULL female connector / M12 socket, number of slots: 6, number of positions: 4, coding: A, slot assignment: single, status display: yes, PNP; master cable connection: Push-in connection 180°, shielding: no

Wiring diagram shows both PNP and NPN wiring. Actual units use PNP status indicator, NPN status indicator, or neither. Dimensions are shown in mm (in. The following are some common specifications and models of distribution boxes and their characteristics: 1. Low-voltage fixed switchgear GGD series: Mainly used in power industries such as substations and power plants, with high breaking. * Maximum output wattage when performed in master-slave control of parallel operation. It is used as lighting, power feed and other purposes. Item PXT20K-500 PXT20K-1000 PXT20K-1500 Weight Approx.

Pressure Transmitters PXT-K Series

PXT-K Series The PXT-K Series pressure transmitters are state-of-the-art instruments providing 4-20 mA output. Each Piezoresistive Pressure Transmitter contains a transducer comprised of a

Model and Specification of Explosion-Proof Distribution Box

Explosion-proof lighting distribution boxes and cabinets come in a variety of models. They vary in terms of materials, including metal and flame-retardant plastic; installation methods, such as

PXT2 series protective rib distribution box

Low voltage distribution box (cabinet) PXT series, in line with GB7251.3 standard, the main incoming component is dual power supply, molded case (leakage) circuit breaker or small (leakage) circuit

Distributor boxes | Phoenix Contact

Use distributor boxes for quick and clear cabling in the field. Distributor boxes bundle several cables into one master cable that is connected to the controller. Thanks to the status indicator, you have an
