

Switch with 2 optical and 4 electrical rail mount

Overview

BL167GM-SFP is a managed industrial Ethernet switch with 2 Gigabit SFP and 4 Gigabit RJ45 ports, compliant with FCC, CE, and RoHS. It supports key Layer 2 protocols for stable communication, features fanless low-power design, wide -40°C to +75°C temperature range, and strong EMC performance. In order to meet the different requirements of industrial applications, this series adopts a modular design, up to 2 Gigabit optical fiber ports and 4 Gigabit Ethernet electrical ports, which. The 2-optical 4-electric switch has 4 10/100/1000M adaptive RJ45 interfaces and 2 1000M standard SFP ports, using the latest American IC, has the character of stable performance, excellent quality, and high cost performance. With a rugged IP40-rated metal case, the switch operates reliably and. Use high-quality photoelectric integrated modules to provide good optical and electrical characteristics Ensure reliable data transmission and long working life Support full-duplex or half-duplex mode with auto-negotiation capability The network port supports automatic cross-recognition Built-in.
