

TG8 Distribution Box

Overview

Material and surface: Housing made of stainless steel 1. 4404 (AISI 316L); blasted and electropolished. Function elements: 2 piezo elements as normally open contacts. Connection: 4-pin connector on the back of the switch housing. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. Wiring diagram shows PNP wiring. 81 ft)]. Sensor/actuator boxes, which are installed directly on machines or systems, are passive distribution systems for signal transmission that is rapid, cost-effective and, above all, cabinet-free. Your benefits with. Distributors - Distribution box. They offer considerable cost saving benefits when compared to hard-wiring I/O connections due to their pre-wired connector slot configurations which enables.
