

What is CE certification for fiber optic patch cords

Overview

Fiber optic cables, as essential components in modern communication and construction sectors, must meet CE certification requirements to enter the EU market. CE marking is a mandatory compliance symbol in the European Union, covering safety, health, and environmental protection. Below are the certifications most closely tied to fiber optic cables. These three certification standards ensure not only legal compliance of your fibre components, but also define technical minimum requirements for. The high-quality fiber optic patch cords for the global markets should display one or more of these certifications, which show their compliance with the international standards: Each connector type must conform to the geometric and material specifications to achieve low insertion loss and high. Gcabling is an ISO9001 certified company, our products have passed the testing of the 3rd Labs of Intertek, SGS, BV, and obtained certificates of UL, ETL, CE, RoHS. Query Link: <https://iq>.
